

PRACTICE NOTE

No. 7 of 2004

Procedure Roll Diets

With effect from 1st January 2005, a party seeking the discharge of a procedure roll diet which has been allocated under rule 6.2(4) will require to make an application by motion for discharge of that diet and further (specified) procedure.

Accordingly, the practice of discharging such diets following a telephone call or other informal request, will cease. The intention is that this will reduce delays arising while causes remain appointed to the procedure roll without fixed or allocated diets.
