

An Official Statistics Publication for Scotland

Criminal court cases activity from Quarter 1 2014/15 to Quarter 2 2022/23

This statistical bulletin is part of a series providing quarterly Official Statistics on first instance criminal case activity in the High, Sheriff and Justice of the Peace courts. Annual statistics for custody and remand, crime and offence breakdowns and criminal appeals are also provided.

Notice

In October 2020, to meet the needs of justice partners, court users and the media, the Scottish Courts and Tribunals Service commenced the publication of a monthly workbook of Management Information showing interim monthly business volumes and trends for first instance criminal cases calling at Scottish courts during the pandemic. The monthly workbook, which is not designated as Official Statistics, may be used alongside these quarterly Official Statistics. <http://www.scotcourts.gov.uk/official-statistics>

The Scottish Courts and Tribunals Service (SCTS) aims to provide the people, buildings and services to enable criminal cases to call in court. The statistics show the volume of criminal first and second instance court cases over time as they flow through court.

The statistics in this bulletin do not have information relating to accused persons in terms of what they were charged with or their resulting conviction or sentence as there are already well-established National Statistics on these aspects of criminal justice. This bulletin does not cover court cases relating to civil business. See the Scottish Government's website for statistics relating to criminal or civil justice:
